REMARKS

The attached five (5) sheets of drawings containing Figs. 1 - 8 replace the original sheets of drawings containing these same Figs. 1 - 8. These replacement sheets of drawings do not introduce any changes into the drawings or add any new material into the drawings. These replacement sheets of drawings merely replace the prior handwritten version of the drawings with formal drawings that are more acceptable for publication.

It is respectfully requested that the attached replacement sheets of drawings be accepted and forwarded to the Publishing Division to be matched with the present application. It is also requested that the attached replacement sheets of drawings be utilized by the Publishing Division as the drawings that are published with the patent that will issue from the present application.

These same sheets of drawings were submitted on February 11, 2008. Upon confirmation of the same through the USPTO's PAIR system, it was discovered that the sheets of drawings were compressed and distorted when uploaded electronically on the USPTO's PAIR system. Thus, these same sheets of drawings containing Figs. 1 - 8 are being resubmitted and should be used in replacement of all previously submitted sheets of drawings.
